

Alcoflex 95 HG F4

DESCRIPTION

Alcoflex 95 HG F4 is a high quality, non-potable ethanol, suitable for chemical formulators and the printing and foundry industries. It does not require an Australian Taxation Office (ATO) permit to purchase.

FEATURES

Ethanol 95% denatured with tertiary butanol.

A clear, colourless liquid miscible in water and hydrocarbon solvents.

Used in industrial cleaning formulations and printing and foundry applications.

Denatured with another alcohol – does not contain hydrocarbons.

Versatility – **Alcoflex 95 HG F4** is readily available and inexpensive. It is often a suitable alternative to Isopropyl Alcohol where solubility is not critical or can be assisted by other formula components.

PACKAGING

Alcoflex 95 HG F4 is available in IBCs (1000 litre bulk containers), drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Alcoflex 95 HG F4** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.804
Flash Point.....	12°C
Boiling Point.....	78°C
Percentage Volatiles	100%
