

# Alcoflex 95 HG

## DESCRIPTION

**Alcoflex 95 HG** is a high quality, non-potable ethanol, suitable for industrial cleaning where a waterless environment is desired. It does not require an Australian Taxation Office (ATO) permit to purchase.

## FEATURES

Ethanol 95% denatured with and Isopropyl Alcohol 5%.

A clear, colourless liquid miscible in water and hydrocarbon solvents.

Used in industrial cleaning formulations and coatings reducer formulations.

Denatured with another alcohol – does not contain hydrocarbons.

**Versatility** – **Alcoflex 95 HG** is readily available and inexpensive. It is often a suitable alternative to Isopropyl Alcohol where solubility is not critical or can be assisted by other formula components.

## PACKAGING

**Alcoflex 95 HG** is available in IBCs (1000 litre bulk containers) and 200 litre drums.

## SAFETY

Please consult the MSDS on **Alcoflex 95 HG** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

### Typical Characteristics

Specific Gravity.....	0.804
Flash Point.....	12°C
Boiling Point.....	78°C
Percentage Volatiles .....	100%
