

BDGE (Butyl Diglycol Ether)

DESCRIPTION

A versatile glycol ether used extensively in the surface coatings and chemical manufacturing industries. It can be used in water based architectural and industrial coatings as a latex coalescent, as a co-solvent in industrial cleaners, household surface cleaners and disinfectants, as well as resins and dyes in water based printing inks.

Alternative names: Butyl CARBITOL, Butyl Diglycol Ether, Diethylene Glycol Monobutyl Ether, Diglycol Monobutyl Ether, Butoxydiglycol, 2-(2-Butoxyethoxy) Ethanol.

CAS Number 112-34-5

FEATURES

A clear, water white fluid soluble in both water and organic solvents.

A highly refined product with low volatility.

Important component in coatings formulations.

Solubility – BDGE is soluble in many organic solvents and water.

Versatility – BDGE can be used in many and wide ranging applications.

PACKAGING

BDGE is available in drums.

SAFETY

Please consult the MSDS on **BDGE** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.955
Flash Point (closed cup)	78°C
Boiling Range	225-234°C
