

ACIDS & CAUSTICS

Caustic Soda Pearls

DESCRIPTION

Sodium Hydroxide in a pearl form is a strongly alkaline caustic used in manufacturing soap, paper, aluminium and various sodium compounds.

FEATURES

Caustic Soda Pearls' form makes it easy to pour and use.

It is a fast-acting, heavy-duty cleaner for paths, driveways and drains.

Caustic Soda Pearls are suitable for use in many applications, including as an ingredient in soap making.

This product can be diluted to the desired strength for many applications. For example, for heavy duty cleaning dissolve 60g of **Caustic Soda Pearls** in 1 litre of *cold* water.

PACKAGING

Caustic Soda Pearls are available in 25 kg bags.

SAFETY

Please consult the MSDS on **Caustic Soda** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.
