

SURFACTANTS & DETERGENT ADDITIVES

Cocodiethanolamide (CDE, CDEW, CD80)

DESCRIPTION

Concentrated non-ionic surfactant used in detergent and cleaning formulations. It has thickening and foam stabilising properties in dishwashing liquid and shampoos at a concentration of 3% to 5%.

FEATURES

CDE functions as a coactive agent to assist in the formulation of well-balanced finished goods by:

- Increasing the volume of foam produced
- Stabilising the foam, particularly under soiled conditions
- Improving the feel and texture of the foam
- Improving the viscosity

PACKAGING

Cocodiethanolamide is available in IBCs (1000kg nett) and drums (200kg nett).

SAFETY

Please consult the SDS on **Cocodiethanolamide** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

PRODUCT CODE 21012

Typical Characteristics

Appearance	viscous liquid
Colour	pale yellow
Free Amine %	6.0 Max.
pH (1% solution)	9.0–11.0
Specific Gravity.....	1.00
Moisture Content %	0.5 Max.
Amide Content %.....	83 – 86
Free Fatty Acid %.....	Nil
