

COOLANTS

# BrineCool

## DESCRIPTION

BrineCool is a premium biodegradable coolant specifically designed to lower the temperature of the brine circuit down to – 20 C.

## FEATURES

Highly Refined – BrineCool is chemically stable, and is non regulated for storage and handling.

Safety – BrineCool has a high flash point and is not considered a toxic product.

## BENEFITS

- A strong pink colour, making it easily detectable in brine circuits.
- A non flammable, non regulated product, hence no flammable liquid licence required to store product.
- A proven corrosion inhibitor to protect mixed metals in the brine circuit.
- Fully biodegradable & compatible with Alcool LF.

## PACKAGING

BrineCool is available in bulk, IBCs, 200 litre and 20 litre drums.

## SAFETY

Please consult the MSDS on BrineCool before use. BrineCool is most unlikely to pose any toxic hazard in normal operation.
