

SOLVENTS / PENETRANTS

# Gunwash

## DESCRIPTION

A wide boiling range, blended cleaning solvent, suitable for cleaning spray lines, guns and other equipment. **Gunwash** is not formulated to be used as a paint thinner. It is recommended primarily for use as a spray gun cleaner.

## FEATURES

Mixture of hydrocarbon and oxygenated solvents gives a wide range of solvency.

**Solvency** – **Gunwash** has high solvency for most paints.

**Cost-effective** – **Gunwash** contains a mixture of hydrocarbon and oxygenated solvents, some of which may be recycled, ensuring optimum performance at a reasonable cost.

## PACKAGING

**Gunwash** is available in IBCs (1500 litre bulk containers), drums and 20 litre containers.

## SAFETY

Please consult the MSDS on **Gunwash** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

### Typical Characteristics

Specific Gravity.....	~0.80
Flash Point.....	~-17°C
Initial Boiling Point .....	>56°C
Percent Volatiles .....	100%
Colour .....	varies
