

SOLVENTS / PENETRANTS

Hexane

DESCRIPTION

Hexane is a colourless, volatile liquid with a mild, gasoline-like odour.

FEATURES

Used in the adhesives industry and in the extraction of vegetable oils, grease, water and soil.

The main use of **Hexane** is as a solvent to extract edible oils from seed and vegetable crops like soybeans, peanuts and corn.

Hexane can also be used as a solvent for glues (rubber and cement adhesives), varnishes, and inks, as a cleaning agent (degreaser) in the printing industry or the liquid in low-temperature thermometers.

PACKAGING

Hexane is available in IBCs (1500 litre bulk containers) and drums.

SAFETY

Please consult the MSDS on **Hexane** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance	colourless liquid
Odour.....	paraffinic sweet
Melting Point.....	-95°C
Boiling Point.....	63–79°C
Specific Gravity.....	0.670-0.675
Flash Point.....	-27°C
