

SOLVENTS / PENETRANTS

MIBK (Methyl Isobutyl Ketone)

DESCRIPTION

A low flash point, branched-chain, oxygenated solvent with a characteristic odour. **MIBK** is a versatile ketone suitable for acrylic coatings and specialty chemical formulations.

FEATURES

A flammable solvent soluble in alcohol and hydrocarbons.

Widely available with extensive on-hand information.

Solubility – **MIBK** is soluble in polar and non-polar organic solvents making it an ideal component in coating thinner and reducer formulations. **MIBK** will effect a slower evaporation rate for a premium gloss finish.

PACKAGING

MIBK is available in drums.

SAFETY

Please consult the MSDS on **MIBK** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.80
Flash Point.....	17°C
Boiling Point.....	113°C
Percent Volatiles	100%
