

SOLVENTS / PENETRANTS

Methoxy Propyl Acetate

DESCRIPTION

1-Methoxy-2-Propyl Acetate, propylene glycol mono methyl ether acetate.

FEATURES

Good solvency power for resins and dyes.

Mild odour.

Medium volatility.

Miscible with most organic solvents.

Limited miscibility with water.

Can be used as a solvent, flow improver and coalescent in coatings.

Assists in core sand binding for foundry applications.

A replacement for ethoxyethyl acetate.

Suitable for coatings containing polyisocyanates.

Other applications include printing, inks, adhesives, ball pen pastes, dyes in polishes and wood stains and for colourings in leather textiles.

PACKAGING

Methoxy Propyl Acetate is available in drums.

SAFETY

Please consult the MSDS on **Methoxy Propyl Acetate** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance colourless clear liquid
 Odour sweet ether like
 pH n/a
 Boiling Point 145.8°C
 Freezing / Melting Point (°C).... not available
 Solubility in Water 19.8g/100g
 Specific Gravity..... 0.966
 Flash Point (closed cup) 46 °C
