

SOLVENTS / PENETRANTS

Recosol 100

DESCRIPTION

100% aromatic hydrocarbon solvent that performs well in formulations requiring a high level of solvency.

FEATURES

A high solvency product that is effective on complex resin systems and agricultural actives.

A narrow boiling range solvent combined with medium evaporation rates making it suitable for the paint industry.

Versatility – **Recosol 100** is miscible with other organic solvents and can be included in any formulation where boosted solvency power is required.

Solvency – **Recosol 100** has high solvency for greases, oils and general dirt as well as sophisticated polymeric surface coatings and specific-use, branched-chain, high molecular weight organics.

PACKAGING

Recosol 100 is available in IBCs (1500 litre bulk containers), drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Recosol 100** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.875
Flash Point.....	44°C
Boiling Range	154-180°C
Aromatic Content.....	99%
