

SOLVENTS / PENETRANTS

Recosol 150

DESCRIPTION

A strong, high flash point aromatic hydrocarbon solvent used in the Agchem, Oilfield and chemical manufacturing industries. **Recosol 150** is typically employed as a carrier solvent in agricultural chemical formulations such as trifluralin.

FEATURES

Performs well in situations requiring a high level of solvency.

A high flash point solvent that is not classified as dangerous goods for transport or storage.

A high solvency product that is effective on complex resin systems and agricultural actives.

Versatility – **Recosol 150** can be included in any formulation where boosted solvency power is required and will combine well with other organic compounds.

Solvency – **Recosol 150** has high solvency of greases, oils and general dirt as well as sophisticated polymeric surface coatings and specific use, branched-chain, high molecular weight organics.

PACKAGING

Recosol 150 is available in bulk, IBCs (1500 and 1000 litre bulk containers), drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Recosol 150** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.891
Flash Point.....	67°C
Boiling Range	182–205°C
Aromatic Content.....	99%
