

SOLVENTS / PENETRANTS

Recosol 42

DESCRIPTION

Aliphatic hydrocarbon solvent that is a low odour alternative to White Spirits or Mineral Turpentine. It is used as a starting point for low odour specialty products, thinning waxes and polishes, metal cleaning and cleaning brushes and equipment after painting.

FEATURES

Combines good solvency with low odour and is a lower irritant than conventional products.

Mid range evaporation rate.

Relatively low-cost.

Leaves no residue on drying.

Versatility – **Recosol 42** can be included in any formulation where controlled evaporation is required and is miscible with all other organic solvents.

Solvency – **Recosol 42** has high solvency of greases, oils and general dirt as well as alkyd resins in architectural enamel coatings.

User Friendly - **Recosol 42** low odour makes it much more pleasant to use than conventional White Spirits or Mineral Turpentine.

PACKAGING

Recosol 42 is available in IBCs (1500 litre bulk containers) and drums.

SAFETY

Please consult the MSDS on **Recosol 42** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance	clear, colourless liquid
Specific Gravity.....	0.781
Flash Point.....	>41°C
Boiling Range	150–180°C
Aromatic Content.....	<20%
