

SOLVENTS / PENETRANTS – DEAROMATISED

Recosol D60

DESCRIPTION

A high flash point, de-aromatised hydrocarbon solvent that may be used as an improved replacement for Mineral Turpentine or White Spirits in cleaning formulations.

FEATURES

A high flash point solvent that is not classified as dangerous goods for transport but is combustible for storage.

A low odour solvent that is a convenient and pleasant alternative to Mineral Turpentine, White Spirits or Kerosene.

Can be used as parts solvent cleaner.

Versatility – **Recosol D60** can be substituted for many traditional solvents in cleaning formulations, as well as sophisticated blends requiring a low odour.

Selective Solvency – **Recosol D60** has a high solvency of greases, oils and general dirt, but does not have the inherent capability to swell rubbers or plastics. This makes it an appropriate electrical cleaner which can be stored in containers with low tolerance seals.

PACKAGING

Recosol D60 is available in IBCs (1500 litre bulk containers), drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Recosol D60** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Specific Gravity.....	0.77
Flash Point.....	63°C
Boiling Range	182–222°C
Aromatic Content.....	~0.2%
KB Value31
