

SOLVENTS / PENETRANTS

Recosol L20 Parts Wash

DESCRIPTION

Combustible hydrocarbon specifically formulated for use in degreasing and parts bath applications. It can also be used as a carrier fluid for non-regulated products.

FEATURES

Mid-range aromatic content.

Slow evaporation rate.

Non-regulated for storage and transport.

May leave a residue on drying.

Versatility – **Recosol L20 Parts Wash** can be included in any formulation where a cost-effective degreaser is required. It is miscible with all other organic solvents.

Solvency – **Recosol L20 Parts Wash** has good solvency for greases, oils, waxes and general dirt.

PACKAGING

Recosol L20 Parts Wash is available in bulk, IBCs (1500 litre bulk containers) and drums.

SAFETY

Please consult the MSDS on **Recosol L20 Parts Wash** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance clear, pale yellow liquid
Specific Gravity 0.82
Flash Point 63°C [PMC]
Boiling Range 150–280°C
