

GLYCOLS

Recotherm PG

DESCRIPTION

Propylene-glycol based high quality heat transfer fluid specifically developed for use in the food and beverage industry. **Recotherm PG** meets the United States Pharmacopoeia (USP) and European Pharmacopoeia (EP) standards for fluids that may have incidental contact with foodstuffs and beverages.

FEATURES

A clear, colourless fluid with low odour and good thermal stability.
A highly refined product with low reactivity, conducive to long service life.
Compatible with most common heat transfer systems used in the food and beverage industry.

Performance – **Recotherm PG** conforms to the following standards:

- United States Pharmacopoeia (USP)
- European Pharmacopoeia (EP)
- Japanese Pharmacopoeia
- US FCC IV

PACKAGING

Recotherm PG is available in drums and 20 litre containers.

SAFETY

Please consult the MSDS on **Recotherm PG** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance	clear, colourless, oily liquid
Boiling Point.....	188.2°C
Melting / Freezing Point	supercools
Specific Gravity.....	1.0361
Flash Point (open cup).....	103°C
Purity	99.8% min
