

SOLVENTS / PENETRANTS

n-Propyl Acetate

DESCRIPTION

n-Propyl Acetate is a colourless, volatile solvent with an odour similar to acetone with multi purpose applications.

FEATURES

n-Propyl Acetate's main application is in the printing inks industry for flexographic and special screen printing inks.

n-Propyl Acetate is slightly soluble in water but is miscible with alcohols, ketones, esters and hydrocarbons. It is a suitable fluid for blended products requiring variation in end-use performance.

PACKAGING

n-Propyl Acetate is available in drums.

SAFETY

Please consult the MSDS on **n-Propyl Acetate** before use.

The information and recommendations contained herein are based on data believed to be correct at this time. However, no guarantee of any kind, expressed or implied is made with respect to the information contained herein.

Typical Characteristics

Appearance	colourless clear liquid
Specific Gravity.....	0.7-0.77
Flash Point.....	13°C
Boiling Point.....	101.6°C
Flammability Limit.....	1.7-8.0%
